DELHI TRAFFIC POLICE

Sh Ajay Chaudhry, IPS
Special Commissioner / TMD (Zone II)

Dear Delhites,

At the onset, I must extend my heartfelt appreciation to all Delhi Traffic Police personnel for their exemplary management during the recent Kanwar Yatra. Despite the massive influx of devotees, there were no major disruptions, thanks to meticulous planning, alternate route mapping, increased deployment, coordination with agencies, and excellent on-ground execution. Technology also played a crucial role in real-time monitoring and maintaining public order.

Due to favourable weather conditions, Delhi's AQI has been good consistently. However, Delhi's alarming pollution levels remain an undeniable reality whose disastrous consequences we have to suffer together. To avoid this regular hazardous situation, we collectively have to take responsibility and ensure that we desist from activities that increase the pollution levels, as also take proactive steps to decrease pollution and improve air quality.

In June 2025 alone, 73,041 vehicles had to be challaned in Delhi for not having valid Pollution Under Control Certificate (PUC). This is disheartening. A PUC test is quick, affordable, and available at petrol pumps and authorised centres throughout the city. If your vehicle fails, a simple tuning or minor repair is often all that's needed to meet the norms.

Policing and fines are not the only solutions. Real change comes when each one of us makes clean habits a part of daily life—regardless of whether anyone is watching. Cleanliness, pollution control, and respect for the law must be community values we uphold with pride.

Clean air is not a luxury—it is a right. Just as we maintain our homes, let us treat our city, our shared home and source of livelihood, with the same care and responsibility.

Let's work together to make Delhi cleaner, greener, and healthier—for ourselves and generations to come.

Thank You.

HAPPENINGS

**Delhi Traffic Police's
comprehensive measures ensured
smooth and peaceful Kanwar Yatra**

◆ Delhi Traffic Police played a pivotal role in ensuring that Kanwar Yatra 2025 which spanned from 11th to 23rd July was successful, peaceful, and incident-free, even as over 20 lakh devotees of Lord Shiva, the Kanwariyas, passed through the National Capital on their journey to collect Holy water from the Ganges at Haridwar or Rishikesh, and return to their respective hometowns.

◆ Meticulous route mapping, detailed planning, coordination with other concerned agencies, and massive deployment of over 5000 security and traffic police personnel on the roads, besides drone monitoring and arrangements at 374 Kanwar camps across Delhi were some key measures.

“ Around 3000 Traffic Police personnel including ZO's were on the streets despite heavy rains on certain days to micro manage the roads during Kanwar Yatra and ensure peaceful and incident free transition of Kanwariyas through Delhi. Elaborate traffic advisories were issued on daily basis about traffic diversions, roads to avoid, expected congestion points etc so that inconvenience to commuters is minimal”, said Jt Commissioner, Delhi Traffic Police, Sh Kime Kaming, IPS.

◆ Detailed traffic advisories were issued on social media, Newspapers, Radio & TV regularly outlining road closures and diversions and suggesting alternative routes for commuters. Traffic restrictions were imposed on commercial vehicles on several key routes. Traffic Police personnel were instructed to politely prevent altercations between pilgrims and commuters.

◆ Due to heaviest footfall of Kanwariyas in the last days, Agra Canal Road (Kalindi Kunj) To Faridabad remained closed for vehicles between 21st to 23rd July.

“At least one lane of major roads were earmarked for Kanwariyas to prevent accidents and ensure smooth traffic flow”, Addl CP/T/ Zone II, Sh. Dinesh Kr Gupta, IPS, informed.

Rich Experiences, Invaluable Memories...

SI (EXE) V. P. S. RAO

With over 39 years of service in Delhi Police including three stints with the Traffic Division, SI V Pedda Sreenivasa Rao has invaluable experience. He proudly talks about the many occasions when he had intercepted vehicle thieves and recovered stolen motorcycles while on Traffic duty. "In most cases, I stopped riders for traffic violations, but the riders tried to flee. Later I discovered the bikes were stolen. I then deposited them at the police station wherefrom the rightful owners retrieved them after presenting documents in court", he said.

With over 39 years of unblemished service with Delhi Police, including the final three years with Traffic Division, SI Mahmood Khan has enjoyed "a most satisfying career life." His advice to the next generation of police recruits is "work hard and ensure rule compliance." Talking about his time with the Traffic Division he calls for increase in traffic booths so that the personnel can take shelter during inclement weather. He says that higher fines and strictness on roads has shown positive results.

SI (EXE) M. KHAN

Having proudly served Delhi Police for over 38 years, SI Sarvesh Kumar upholds Delhi Police as being "the best in the country." His message is "I urge new recruits to work with dedication and follow instructions of seniors. Our Traffic Division conducts Road safety training widely. This initiative has had a positive impact, and we should expand it to more areas with frequent awareness camps. Strict adherence to traffic rules by all is essential for smooth and safe traffic flow."

AWARDED & REWARDED

SI (EXE) SIRI BHAGWAN

Sub-Inspector Siri Bhagwan, who retired on June 30 after 39 years of distinguished and highly appreciated service with Delhi Police, was honored with 156 rewards over the course of his career which began in June 1986. Posted to the Traffic Division from 1990 to 1993, he returned in 2015 and served until retirement. Deputed to the busy, chaotic Kapashera circle, he received many rewards for catching drunken drivers and challaning traffic rule violators . In 2002 he was rewarded for nabbing a drug peddler and recovering 5 kgs of illegal substance in Hauz Khas zone.

Talking about challenges in managing the ever increasing Delhi traffic, he says, “ Delhi’s traffic system has improved greatly, but continued progress depends on active public cooperation. “ For the new recruits his advice is , “work hard, follow your duty schedule, and serve with honesty. In Delhi Police, you can work independently and without pressure if you stay committed to your duty. Delhi Police rewards good work.”

Sub- Inspector Arun Kumar who also retired on 30 June’25 has a similar sterling and rewarding career. He says, “I joined the Delhi Police in April 1986. For the past three and a half years, I have been serving in the Traffic Division at Khajuri Circle. Over the years, roads have become wider and better maintained, and thanks to our dedicated efforts, traffic flow in the capital is now almost seamless.

During my 39 and a half years of service, I have had the opportunity to handle many important assignments and received several commendations and rewards from my seniors in recognition of my work. One incident that stands out occurred during my six-year tenure at the

Bhajanpura Police Station. A young boy, the son of a high-profile individual, was kidnapped, and the abductors demanded a ransom of Rs. 10 lakh for his release. Our team acted swiftly and efficiently—we rescued the child unharmed and arrested the kidnappers. For this successful operation, I was honored with a cash reward from the then Commissioner of Police.”

Road Safety Awareness

Feedback

"The Lighthouse Institute where I study brought us on an educational trip to the Traffic Training Park at Roshanara Road. Here we came across a very beneficial and interesting programme put up by Delhi Traffic Police personnel who educated us about traffic rules, road signs, what to do and what to avoid during driving, how to check and maintain our vehicles and so on. The Road Safety training will remain with all of us for life. **Rashika, College Student**

Delhi Traffic Police instructors refreshed our knowledge regarding traffic rules and also advised about Road Safety measures we must follow while driving. We were asked to stick to our lanes, drop and pick up passengers from designated bus stops only, never to drink and drive, never to jump red light etc. We will remember these directives", **Gaurav, DTC Bus driver, Subhash Place Depot**

"We are indebted to Delhi Traffic Police for conducting an eye opening Road Safety programme in our school. The instructions were conveyed in friendly, entertaining, easy to remember manner. We teachers and staff and our students are now more aware about proper road behaviour, traffic rules, road signs etc.", **Poonam Kumari, Teacher, R B Ramroop School**

" Delhi Traffic Police personnel instructed us that we must always wear our uniform and proper shoes while on auto driving duty. Drunk driving and talking on mobile phones while driving, are prohibited. We must always behave politely and help passengers, especially ladies and tourists. These and many other beneficial advise were given. We will abide by these directions. ", **Ashok Kumar, Auto driver, Kashmiri Gate**

" I am very grateful to Delhi Traffic Police personnel for affixing red reflective tape on my cycle which will shine during nights and alert other drivers of my presence. Cyclists are one of the most vulnerable road users and are often hit as most of our cycles do not have lights and other vehicle drivers are unable to see us during nights. Reflective tape will reduce this risk. ", **Anshu Yadav, Cyclist**

CELEBRITIES SPEAK

MIKA SINGH
Singer

“Delhi Traffic Police personnel have been doing a commendable job in ensuring smooth movement of traffic on the roads of National Capital. Despite scorching sun and extreme weather conditions, they are performing without break. As citizens we have responsibility to strictly follow the rules and cause minimum hurdles on the busy roads of Delhi. Wear helmets, seat belt, stop before stop line in the red light signal, religiously follow lane driving rule and no matter what, we should never talk to mobile while driving. These are very basics for everyone to follow while driving on the road. Listen to my music while driving but at the same time follow traffic rules and concentrate in driving please.”

The government needs to create a system to ensure that children are taught about traffic rules and regulations at the school level itself. The idea is to include the traffic related teachings in our school curriculums, maybe in the syllabus. That way our future generations will be well aware of all road signals and traffic rules when they are eligible for driving license. It should be a long-term programme. This will ensure that our traffic movement not only in the National Capital, but in the entire country would be seamless and free from frequent jams, road rage etc.

Sh Satya Vir Katara, IPS **Addl CP- T/HQ**

To the Citizens of Delhi,

The monsoon season has once again brought familiar challenges—traffic jams, waterlogged roads, fallen trees, non-functional signals, and long delays. Despite the weather, our Delhi Traffic Police officers remain on duty 24x7, often standing in heavy rain while many of us pass by comfortably inside our vehicles. Let's take a moment to appreciate their dedication.

While civic agencies are working hard to clear drains, repair traffic signals, and manage waterlogging, the responsibility of keeping our roads moving cannot fall on the Traffic Police alone. Each of us must do our part.

Breakdowns due to rainwater entering vehicle engines are a major cause of congestion. Please get your vehicles checked before stepping out in such conditions. Better still, consider using the reliable and efficient Delhi Metro to avoid road delays.

Dangerous driving practices—wrong-side driving, reversing on busy streets, and general recklessness—cause serious disruptions and accidents. In June 2025 alone, 10,269 vehicles were challaned for driving against traffic flow. This must stop.

Rain also increases the risk of skidding. Wear helmets (ISI 4151 marked and properly strapped) and seat belts at all times. Last month, 79,784 people were caught riding without helmets, 5,307 were caught without seat belts, and hundreds more were found with improperly worn helmets.

These violations are not mere statistics—they represent risks to your life and those around you. Traffic rules are not just laws; they're safeguards.

Lastly, please follow Delhi Traffic Police on social media. We regularly update road conditions, diversions, and alerts. Check before you travel—it could save you time and trouble.

Together, let's make our roads safer and smoother, especially during these testing monsoon months.

Stay safe. Follow traffic rules. Help us help you.

GUIDELINES FOR PARENTS OF SCHOOL CHILDREN

- Parents are equally responsible for their children during school journeys.
- They must ensure that the mode of transport arranged by school or by themselves is absolutely safe.
- Parents must play the role of vigilant observers. They should note down violations committed by school buses and immediately report to the authorities.
- Parents must participate in Parent-Teacher Meetings and discuss the safety aspects of their children.
- While taking their children to school themselves, they should take proper care of their safety.
- Parents must ensure that the children acquire the right knowledge and skills for safe use of roads. They should teach their children the basic rules of the road, how to walk and cross the road, how to alight and board a bus, etc.
- Parents should not allow their minor children to drive.
- Parents must also ensure that the right attitude necessary for a law-abiding citizen is inculcated in their children from the very beginning.
- Children are very good observers and therefore, parents must set an example by meticulously observing even small traffic rules.
